

Legastat can help you design a review strategy that addresses your timeframe constraints and meets your economic needs. We can create a solution utilising your in-house system, or help you develop a hosted Web-based strategy.

Concordance[®] FYI[™] Reviewer

Legastat offers multiple review solutions including: Conceptual Organisation, Conceptual Search, or Linear based reviews. Our enterprise class hosting facility is always ready to host your case with a guaranteed 99.98% uptime. Our hosting facility is located in a state-of-the-art fully redundant colocation facility with security above US Department of Defense levels. Access to our dedicated technical staff, who are available 24/7/365, ensures that you receive the best support in the industry on all cases hosted by us. We currently host over 3500 active databases totalling more than 50 terabytes of information in multiple review platforms.
